

ACKNOWLEDGMENTS

An accomplishment of this magnitude is only possible due to the efforts of many people, and the **YUVA School Life Skills Programme** is no different. Hundreds of highly committed individuals worked with enormous passion and zeal over 3 years to produce this, while thousands of others contributed in their own way.

The **YUVA School Life Skills Programme (SLP)** has relied primarily on a few major sources, firstly, students, Teachers and Principals. Their feedback, comments, ideas and suggestions are the single largest source of all the material. The second crucial contributor has been newspapers and the Internet. The Delhi editions of the Hindustan Times, Hindu, Indian Express, Statesman and Times of India alongwith the worldwide net not only gave us valuable information but also indicated the most important areas of public concern, helping us to prepare sessions appropriately. The third source is anecdotal evidence generously given by individuals, experts, professionals, social activists, journalists, doctors, lawyers, NGOs etc. Their information was invaluable in the preparation of many sessions. The fourth source was books and publications, mostly of the Government and agencies of the United Nations.

Many thanks go to Palash Sen and the rock band EUPHORIA for composing the brilliant and hugely popular YUVA theme song: MANN YUVA

The YUVA SLP is all about values and principles, of giving respect to people and of empowering them with the skills necessary to achieve their goals. The YUVA SLP and indeed all the achievements of the Department have been possible because of three very remarkable persons. The first is P.K Tripathi, IAS, Principal Secretary to the Chief Minister. A man of high principles, he has given unstinting support and encouragement to all officers, Principals and Teachers. By his actions and behaviour he has conveyed that he '*values*' not only everyone in the Department, but also the purpose of education and the aims and goals of the YUVA SLP. The second person is Arvinder Singh, the Minister for Education, who has always been a friend and trusted guide. We are indeed privileged to have a Minister who is committed to the cause of education and whose only wish is for the entire system to improve and do well. He constantly worked with everyone to ensure that targets were met and goals reached. The third person is Sheila Dikshit, the Chief Minister. It was her boundless enthusiasm, support and indeed love, which energised all the officers, Principals and Teachers to go that extra mile to achieve incredible goals. It was she who suggested that we start a life skills programme, giving us valuable ideas on what it should contain. These three remarkable, extraordinary persons have made all the difference. They have given respect to all officers, Principals and Teachers, they have made everyone feel valued, and they have empowered all of us to reach our goals, for which we are sincerely grateful.

Our gratitude also goes to the Principals Association and the Government Schools Teachers Association for their incredible, proactive role in the YUVA SLP. And lastly, we acknowledge the most important people of all - the officials, Principals, Teachers, Parents and Students, for they are the prime movers and architects of all our successes and plans.
